PRIMARY EXAMINER

Art Unit: 2881

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

Paragraph [0001], line 2, after "2000," insert --now U.S. Patent No. 6,337,483,--.

The following is an examiner's statement of reasons for allowance: The claimed apparatus for germicidally cleansing a gas differs from that claimed in applicant's earlier U.S. Patent No. 6,337,483 only by requiring that the ultraviolet light source positioned in the chamber. While Stark et al. and Rauser et al. teach that such helical ultraviolet light sources are known in the field, nothing in the prior art would suggest to a person having ordinary skill in the art a reason to use such a helical ultraviolet light source in the apparatus for germicidally cleansing a gas claimed in Patent No. 6,337,483.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
